Assistant Principal: Mrs. V. Longman BA (Hons)

In the Summer term, pupils are taught Relationship and Sex Education (RSE), this is part of the statutory curriculum, and the following is covered:

KEY STAGE 1

Pupils in Year 1 are taught:

- About the different ways in which they have changed since they were a baby, including the changes to their bodies.
- Biological names for various body parts including penis, vulva, testicles and breasts.
- The different words families may have for these body parts and why it is important that children know that there is a scientific name for these words.

Pupils in Year 2 are taught:

- To match the correct body parts to a male and female.
- The function of clothing to make us look nice, keep us warm and keep certain parts of our bodies private.
- About the process of aging and the fact that this cannot be controlled.

KEY STAGE 2

Pupils in Year 3 are taught:

- That humans reproduce and produce offspring.
- That women have babies and that in most animals, it is also the female that has babies.
- About the way a baby grows in its mother's uterus.
- About the word "puberty", and that this is used to explain when a child's body turns into an adult.
- About the importance of hygiene
- The biological terminology used to describe changes in boys' and girls' bodies as they go through puberty.
- That puberty is necessary for the body to be able to make babies.
- At Ormiston Herman Academy we value traditional and non-traditional parenting.

Pupils in Year 4 are taught:

- That a baby is made when sperm from a man and a woman's egg joins.
- That they were made by a sperm and an egg and therefore have some of the characteristics of each of their parents.
- That girls begin periods once they have entered puberty and that this is a natural process

necessary to being able to one day make a baby.

- To identify some of the changes which have already happened to their bodies (e.g. growing taller) and accepting that they cannot change these.
- About the importance of relationships, focusing on the development of friendships.

Pupils in Year 5 are taught:

- More about how girls' and boys' bodies change during puberty, including how they might feel about these changes
- About 'self-image' and the idea that how they see themselves is not necessarily how others see them.
- That attraction to others of the opposite or same sex is a natural part of growing up.
- About what terms such as 'gay' mean, as and when these terms arise.
- About different situations and scenarios represented in the world around them (e.g. same sex parents).
- To identify things that they are looking forward to about becoming a teenager and to understand that growing up brings responsibilities.
- That the legal age for sexual consent is 16.

Pupils in Year 6 are taught:

- That babies are made during sexual intercourse.
- That having a baby is a choice which responsible adults make when they are with someone they love.
- Strategies for the development of positive self-image and self-esteem.
- To use their knowledge to answer questions their peers may have about getting older.
- The importance of looking after themselves physically and emotionally.
- The way in which being physically attracted to someone might change the nature of the relationship that they have with each other.
