

Monday 9th February 2026

09.02.26

Morning Challenge

**Task A:** Complete these calculations in your book.

1.  $348 + 127 =$

2.  $5 \times 7 =$

3.  $924 - 508 =$

4.  $56 \div 8 =$

5.  $2/6$  of 42

6.  $3 \times 24 =$

7.  $670 + 290 =$

8.  $9 \div 100 =$

9.  $14/10 + 4/10 =$

**Task B:** Complete these multiplication questions.

1.  $2 \times 2 =$

2.  $3 \times 3 =$

3.  $4 \times 4 =$

4.  $5 \times 5 =$

5.  $6 \times 6 =$

6.  $7 \times 7 =$

7.  $8 \times 8 =$

8.  $9 \times 9 =$

9.  $10 \times 10 =$

10.  $11 \times 11 =$

11.  $12 \times 12 =$

# Maths Arithmetic Quiz

1. Read your question carefully.
2. Look at the symbol and check what the question is asking you to do.
3. Answer the question. Use the space to show your working out.

If you have finished:  
Read through each of your questions and check that you have answered them carefully.  
Have you used the correct method?  $+$   $-$   $\times$   $\div$

09.02.26

Monday 9th March

# Reading Quiz

You should use the texts to help you answer the questions.

There are different types of questions in this booklet. Read the instructions for each question carefully – this will show you what type of answer is required.

Write your answer in the space provided.

If you are not sure what to do, ask the adult you are working with.

You may find it helpful to annotate the booklet or the texts themselves. If you want to change an answer, cross it out neatly then make sure that your new answer is clear to read.

Monday 9th February 2026

Q - Which animals live in a tropical rainforest?

3 in 3

Rainforests are home to an amazing variety of animals. High in the treetops, colourful birds like toucans and parrots glide from branch to branch. Monkeys swing through the leaves, using their long tails to help them balance. On the forest floor, jaguars quietly stalk their prey, while tiny insects crawl under fallen leaves. In the rivers, bright frogs and slippery fish swim through the cool water. The rainforest is full of life and every animal has its own special role in this busy habitat.

- 1. Name two animals that live high in the rainforest trees.**
- 2. How do monkeys use their tails?**
- 3. Why is the rainforest described as “full of life”?**

Monday 9th February 2026

Q - Which animals live in a tropical rainforest?

**Blue** – Which layer sits below the emergent layer?

**canopy   understory   emergent   forest floor**

**Green** – Which layer sits above the forest floor?

**emergent   canopy   forest floor   understory**

**Challenge** – Which two phrases best describe the forest floor?

**very dark   lots of sunlight   little rainfall   lots of rainfall**

In this lesson, we will learn about the wide variety of different species of plants and animals, which create the high biodiversity in tropical rainforests.

The key term in this lesson is **biodiversity**. Biodiversity is the variety of wildlife and plants in a particular habitat, such as the rainforest.

# Which animals live in a tropical rainforest?

## Key knowledge

- Tropical rainforests are home to many animals.
- The animals within a rainforest have adapted to live there.
- The characteristics of the animals depend on the layer of the rainforest they live within.
- Some animals move between the layers of the rainforest.

## Key vocabulary

- adapted
- camouflage
- decomposer
- predator
- prey
- species

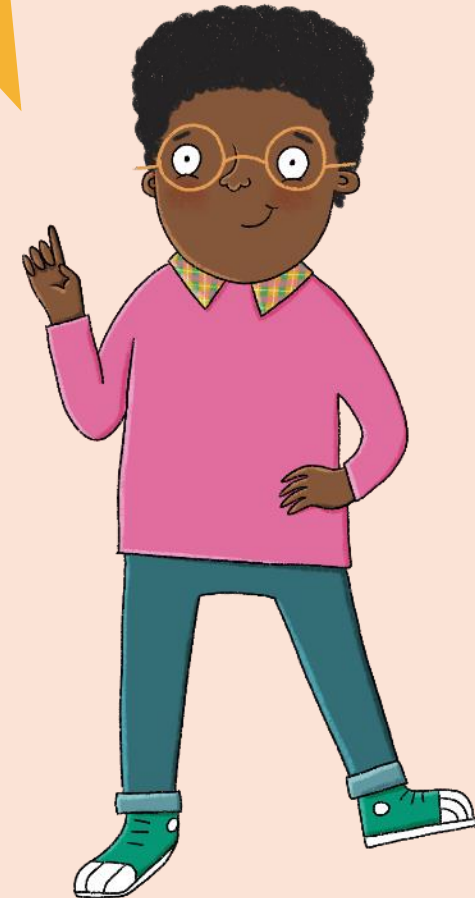

Which animals might live in each layer?

Turn and talk

What do you know about the layers of a tropical rainforest?

# Which plants and animals live in a tropical rainforest?

Tropical rainforests support a wide variety of different **species** of plants and animals. This means that they have a high **biodiversity**.

# Which plants and animals live in a tropical rainforest?

Each of these species are supported by food sources provided by the rainforest itself and the Amazon River, which flows through it. The different types of plants and animals have **adapted** to live successfully in the different layers.

## Which plants and animals live in a tropical rainforest?

Rainforests, are home to over half of the world's plant and animal species. In the Amazon alone, there are:

- at least 40,000 different plant species
- 427 different types of mammal
- 1,300 different types of bird
- 378 different types of reptile
- 400 different types of amphibian.

It is also estimated that there are around 100,000 different invertebrate species.

Monday 9th February

Q: Which animals live in a tropical rainforest?

## Emergent layer

Animals found in the emergent layer are usually small enough to be supported by thin trunks and branches, such as monkeys who are good at jumping between the trees. Birds, bats, gliders, and butterflies also live in the emergent layer, as well as **predators** like white-tailed hawks and harpy eagles, who build their nests high in the trees and hunt animals from the layers below.

## Canopy layer

The canopy layer is filled with fruits and so most animals live within this layer. The animals found here are: macaws, toucans, sloths, and howler monkeys, they are good at climbing. There are also thousands of insects in this layer.

## Understory layer

The lack of light in the understory layer means that animals here are **camouflaged** from each other, which is useful for both predators and **prey**. Animals found in the understory layer of the Amazon Rainforest include snakes, insects, and leafcutter ants. There may be jaguars waiting to pounce from the forest floor too!

## Forest floor

The largest animals live on the forest floor, such as armadillos, anteaters, agouti, rodents, and jaguars. They live alongside small **decomposers** such as termites, slugs, and worms, who break down the rotting leaves which have fallen from the trees.

Monday 9th February

Q - Which animals live in a tropical rainforest?

Independent

Each of these animals live in the rainforest. With your partner, research each animal and answer the following questions.

What size is this animal?

Where do they live? (Which layer of the rainforest?)

What do they eat?

One way they have adapted to living in the rainforest.

Capybara

Jaguar

Toucan

River Dolphin

Cut the image of the animal from your strip, stick it in your book and write the information next to it. Example on next slide.

## Capybara

A capybara is \_\_\_\_\_m long.

They live in the \_\_\_\_\_ layer of the rainforest.

They like to eat \_\_\_\_\_.

They have adapted to living in the rainforest by \_\_\_\_\_.

Monday 9th February

Q - Which animals live in a tropical rainforest?

Exit question

Name three animals that live in the rainforest.

How have animals adapted to living in the rainforest?

Challenge

Describe what adaptation means and how this has helped animals survive in the rainforest.

Can you include vocabulary such as: predator, prey and camouflage?

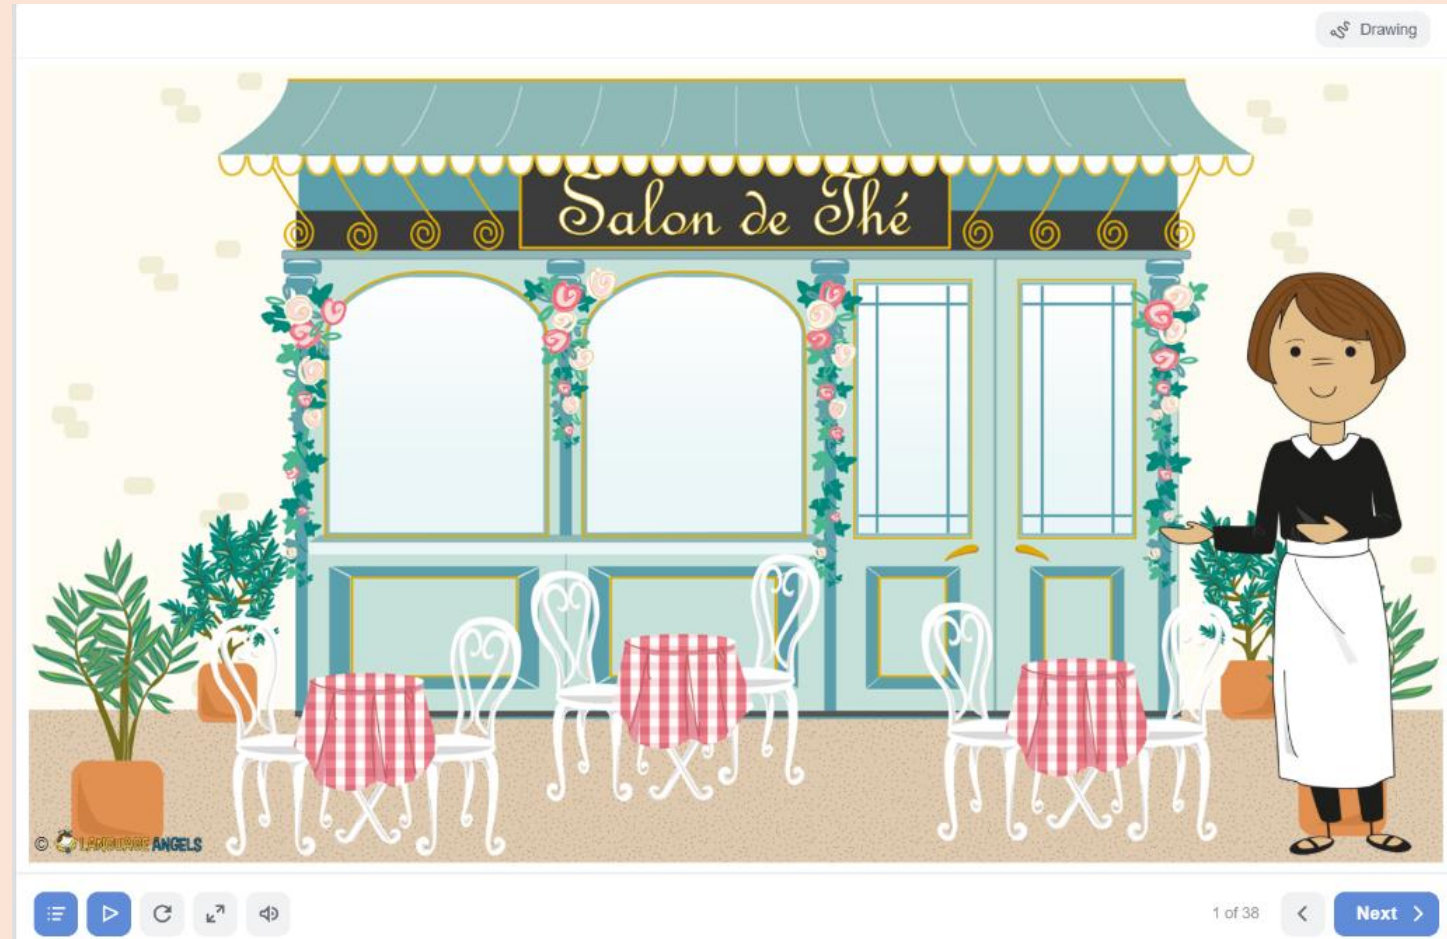

lundi 9 février

TBAT: revise all language covered so far and complete assessment for the unit.

## Turn and talk:

How do you say 'the bill please' in French?

How do you say 'I would like a croissant please' in French?

Name:

Date:

Class:

Unit: Au salon de thé

### Speaking Exercise

Can you say any of the following in French?

*an orange juice*

*a ham and cheese toastie*

*I would like a hot chocolate please.*

*The bill please.*

*I would like a croissant and a coffee please. Thank you. Goodbye.*

### Listening Exercise

Listen to the audio of Chloé making her order in the *salon de thé*. Answer the following questions:

1) What does Chloé order first?

- a) an orange juice      b) a grenadine      c) a coca-cola

2) How many ham and cheese toasties does she order?

- a) one      b) four      c) two

3) What type of cake does Chloé order?

- a) carrot cake      b) chocolate cake      c) coffee cake

4) Which food item does Chloé order last?

- a) a brioche      b) a crepe      c) a salad

5) What does Chloé say at the end?

- a) Thank you. Goodbye!      b) The bill please.      c) Hello.

WORD  
BANK

merci    un sandwich au jambon

s'il vous plaît    l'addition

Bonjour

une grenadine

un chocolat chaud

Je voudrais

un café

un croissant

## Reading Exercise

Can you answer the questions below based on the information given in the text?

Bonjour ! Je m'appelle Adamou. Je voudrais un sandwich au fromage, deux parts de quiche, trois tartelettes et une limonade s'il vous plaît. Merci ! Au revoir.

What is the customer's name?

Which type of sandwich does the customer order?

How many slices of quiche does the customer order?

What food does the customer order three of?

What drink does the customer order?

## Writing Exercise

Can you write any of the following five phrases in French?

a slice of chocolate cake

a coffee with milk

What would you like?

The bill please.

I would like a salad and a tea please. Thank you.

WORD  
BANK

une part de quiche

un croissant

un café au lait
